

Coleford, Gloucestershire

Bridging of a Mineshaft

Following the discovery of an existing mineshaft on the perimeter road of the Royal Forest Factory, Talus Construction were appointed to investigate and provide a fast track solution to our client's predicament. This involved temporary staging, coring and CCTV investigations followed by design and construction of a reinforced concrete bridging slab. Prompt design and construction minimised disruption to factory operations.

Client:
Glaxo Smyth Kline

Project:
Mineshaft Capping

Architect:
Davidson Walsh
Consulting Engineers

Value:
£70,000

Contract:
JCT Design & Build 2011
